To store your credentials into the Eclipse secure store click Store in Secure Store. Note: many HTTP proxies are configured to block HTTP URLs containing a user name, since disclosing a user name in an HTTP URL is considered a security risk. In that case remove the user name from the HTTP URL and only provide it in the user field.

EGit/User Guide - Eclipse

User configuration data such as preferences is stored in the All-Users project under a per-user ref. The user's ref is based on the user's account id which is an integer. The user refs are sharded by the last two digits (nn) in the refname, leading to refs of the format refs/users/nn/accountid .
