Congress—and in particular, the House of Representatives—is invested with the "power of the purse," the ability to tax and spend public money for the national government. Massachusetts' Elbridge Gerry said at the Federal Constitutional Convention that the House "was more immediately the representatives of the people, and it was a ...

Power of the Purse | US House of Representatives: History ...

Horsepower (hp) is a unit of measurement of power, or the rate at which work is done, usually in reference to the output of engines or motors. There are many different standards and types of horsepower. Two common definitions used today are the mechanical horsepower (or imperial horsepower), which is about 745.7 watts, and the metric horsepower, which is approximately 735.5 watts.
