### Initial Coin Offering (ICO) Definition

An initial coin offering or initial currency offering is a type of funding using cryptocurrencies. It is often a form of crowdfunding, however a private ICO which does not seek public investment is also possible. In an ICO, a quantity of cryptocurrency is sold in the form of "tokens" to speculators or investors, in exchange for legal tender or other cryptocurrencies such as Bitcoin or Ethereum. The tokens are promoted as future functional units of currency if or when the ICO's funding goal is met

### Initial coin offering - Wikipedia

The ICO file format is an image file format for computer icons in Microsoft Windows. ICO files contain one or more small images at multiple sizes and color depths, such that they may be scaled appropriately. In Windows, all executables that display an icon to the user, on the desktop, in the Start Menu, or in Windows Explorer, must carry the icon in ICO format. The CUR file format is an almost identical image file format for non-animated cursors in Microsoft Windows. The only differences between

### ICO (file format) - Wikipedia

What is an ICO file? An ICO file contains an icon, which is typically used for a Windows program, file, or folder. It stores one or more images in various sizes so they can be appropriately scaled depending on their use. ICO files are similar to CUR files, which are also used in Windows, and ICNS files, which are used in macOS.
